

Explore SAP – Discover Your Future

What is it like to work at SAP? Join us for Hybrid SAP Student Day 2024 to find out!

If you are a student at a university or school, a graduate or PhD graduate, excited about people, technology, and innovation, then this event is for you!

Learn about:

Explore SAP - Discover Your Future

Margit Herrler and Anja Wölfel are Campus Strategy & Engagement Leads for the DACH Region. They have been with SAP for over 20 years and will talk about how you can join us, how it is to work at SAP and show you the different career opportunities and paths you'd be able to take.

A Glimpse into Professional Software Development and the Power of ABAP

Join our panel discussion with Daniel Gerecht (Head of BTP ABAP), Sarah Dold (Developer/Scrum Master), Philipp Degler (Developer/Architect), Fabian Fellhauer (Product Owner), and Cristina Fissgus (Scrum Master), who will share insights into their roles, the challenges they face, and the innovative solutions they create. Their focus will be on the ABAP Platform, the backbone of SAP's success. ABAP, our proprietary programming language, is not only integral to our operations but also continually evolving to meet the demands of the digital age. The platform is instrumental in advancing the ABAP language, providing development tools, enabling cloud-based applications, and driving ABAP GenAI development. This session will provide a comprehensive overview of the complexities and rewards of software development at SAP. It will also include a Q&A segment, offering you the chance to have your questions answered about ABAP, the dynamics of working at SAP, and the broader landscape of professional software development. Don't miss this opportunity to gain a deeper understanding of the inner workings of a leading software company and the exciting career paths it offers.

Experience Center Tour (onsite and virtual)

Our colleagues will guide you through our SAP Experience Centers that provide innovation spaces to collaborate in a community leveraging the SAP solution portfolio in various locations worldwide. The centers highlight how SAP and its partners transform companies holistically across departments, people, and processes to become intelligent and sustainable enterprises. SAP customers and partners are invited to experience first-hand a range of interactive showcases, real-life use cases, and ready-to-use demos through on-site, virtual, or hybrid meetings.
