

We are looking for a

Student (Research) Assistant

to support us in research & teaching.

Key facts:

- You will support us (Markus Frank and Peter Schäfer) in our accounting research and teaching preparation. Our hot topics are accounting fraud, white-collar crime, and executive compensation.
- Your weekly working time is 7 hours, which you can divide flexibly.
- You will work on diverse tasks and develop a broad skillset.

What we offer:

- The opportunity to put learned knowledge into practice (e.g., conduct research and prepare presentations)
- Insights into various current research topics and a wide range of interesting tasks
- Very flexible working hours in a cooperative and feedback-oriented work environment
- Working from home is possible
- Social gatherings and events (e.g., summer symposium) and a great network at the chair

What you should bring:

- Studies in Business Administration, Information Systems, Informatics, or Mathematics
- English proficiency and advanced German knowledge
- Self-initiative as well as an independent and conscientious working style
- *Optional:* Programming skills (ideally previous experience with Python, Stata, or R)

Interested?

We look forward to receiving your application by e-mail to Markus Frank (markus.frank@tum.de). Your application should include a CV, high school diploma, and current grades. A motivation or application letter is not necessary.
