

# Student Assistant

**to two doctoral candidates at the Chair of Management Accounting.**

**Wanted** as of now! The weekly working time is 7 hours that you can divide very flexibly. You will support two doctoral candidates in their research on integration of ESG (environmental, social, governmental) factors into decision-making and strategy formulation. Your assignments will be very varied and give you the opportunity to develop a broad skillset.

## What we offer:

- The opportunity to put learned knowledge into practice (e.g. conduct research, perform analyses, prepare presentations, ...)
- Insights into various academic fields and a wide range of interesting tasks
- Very flexible working hours in a cooperative and feedback-oriented work environment

## What you should bring:

- Studies in Business Administration or Informatics
- German and English proficiency
- Self-initiative, independent and conscientious working style
- *Optional:* Programming skills (ideally previous experience with MATLAB, Python, R, and LaTeX)

## Interested?

Then we look forward to receiving your application (Curriculum Vitae including high school diploma and current grades) by e-mail to Johanna Schulze-Berge/ Alexandra Knoth ([johanna.schulze-berge@tum.de](mailto:johanna.schulze-berge@tum.de); [Alexandra.knoth@tum.de](mailto:Alexandra.knoth@tum.de)).
