IDP IN NATURAL LANGUAGE PROCESSING (NLP)

PROJECT: NLP TEXT-BASED CHATBOTS / ROBO ADVISOR FOR DEALS AND PRODUCT SEARCHES

SUMMARY

- Dealfinder chat bot service for end customers (e.g. via WhatsApp)
- Find the best price / deals for customer needs
- Example:

  Customer : "Hey I'm looking for a new laptop for university".
  Bot : "Okay, do you use any programs besides PowerPoint, Excel, Word?"
  Customer : "I just play Minecraft from time to time"
  Bot : "Since you need it at uni, I guess it's important to you that it's rather small/portable?"
  .....
  Bot "As a recommendation I would have the following 3 laptops....., do you like any of them?
  Customer "Yes 1 and 2"
  Bot "Great, based on the historical development, the laptop will soon be available for a little cheaper again. Do you want me to notify you when it's cheaper again?"

YOUR SKILLS

- NLP/data analytics/machine learning skills
- Programming skills (e.g. python, node.js)
- Scraping techniques
