THE PROJECT STUDY

Market Screening operational Venture Capital Funds

- **Step 1:** Research operational Venture Capital funds in the US, GB and the Nordics
- **Step 2:** Segment the VC funds by their value-add strategy and show the different approaches being used
- **Step 3:** Analyze differences between the funds' investment focus in terms of stage as well as industry
- **Step 4:** Derive hypotheses from the development of other asset classes (e.g., Private Equity) on how the VC industry is going to develop within the next years

What are the goals?

- Comprehensive market overview of operational VC funds
- Segmentation of value-add strategies by operational VC funds (by investment stage as well as industry)

What do you get from us?

- Insights into the newest developments in the VC industry
- Possibility to co-design ideas and innovative approaches
- Firsthand insights into a newly established unit at UVC Partners
- Working with a fun and amazing bunch of people 😊

We are in, what are the next steps?

- If you are available 3 months full-time, you are a group of 3-4 students and you are willing to work virtual with regular catchups on-site in Munich, send the following details to theinert@uvcpartners.com
 - CV + grade overview
 - Your most favorite movie of all-time (per student)
