

# IDP: Natural Language Processing

## Natural Language Inference and Question Answering

### Who **WE** are:

Convaise is a Munich-based startup founded by three TUM alumni. We have built our SaaS solution *Convaise Studio* with which we simplify bureaucratic processes of our corporate and governmental customers by helping them to automatically transform old-fashioned forms and documents into interactive, ML based conversational assistants. We launched in early 2019 and are looking to expand our team in the coming months – sounds interesting? We are excited to hear from you!

### What to know before the IDP:

- IDP is supervised by the **Chairs of Entrepreneurial Finance**
- Applications are possible as **team or individuals**
- Theoretical part is scoped around Entrepreneurship and Management, lectures can be chosen by you

### Your **RESPONSIBILITIES**:

The goal of this IDP is to **improve and expand our current NLP engine** by evaluating state-of-the-art NLP approaches and developing your own solutions.

- Evaluate and compare state-of-the-art NLP approaches in Natural Language Inference and Question Answering
- Develop and fine tune your own models given our datasets and use case
- Bring your models from Jupyter notebooks to production

### Who **YOU** are:

- You should have built your **own DL models** (not necessarily NLP)
- Proficient in **Python or equivalent**
- Teamplayer with ability to work independently
- You are passionate about learning new approaches and building out-of-the-box solutions
- Fluent in English, German beneficial

### What we offer:

- Join a highly driven team with flat hierarchies with room and freedom to experiment and learn
- Flexible working times to fit your studies with clear objectives and goals
- Work remotely or on-site in our office in the heart of Munich
- Possibility to join the team as a working student or full time employee

### How to apply:

As a team or individual send the following information to [stefan@convaise.com](mailto:stefan@convaise.com):

- CV(s) and LinkedIn (if existing)
- Earliest possible starting date
- Previous projects and team experiences (couple of sentences)
- Any questions you might have
