

# EXPLAINING THE VENTURE MATURITY GAP BETWEEN US & EUROPE FOCUSING ON HEALTH TECH

## OVERVIEW

### 1 ■ Challenge

When comparing venture maturity between US and Europe, a huge gap exists between those markets. Join us in discovering why that is the case and which verticals have the biggest catch-up potential within health tech.

### 2 ■ Your role

- Identify and explain the venture maturity gap between US & Europe (historically & currently)
- From these findings you draw conclusions regarding future developments
- If you witness other exiting topics in this field of study, we are flexible to adjust the initial project
- Corona-setting: flexible working hours and homeoffice

### 3 ■ What we are looking for

- 2 proactive, analytical, and motivated students
- Fluent in German and English
- Relevant previous experience / internships are a plus
- 6 months part- or 3-months full-time
- Remote work is appreciated

### 4 ■ About YZR

We are a venture capital firm with a unique setup of seasoned serial entrepreneurs, venture capital investors and private equity professionals. We back outstanding entrepreneurs and their ideas with capital and healthcare-specific expertise to create European champions.

### ■ What we offer

- Insights into the healthcare / health tech market and venture capital / start-up industry
- Dynamic start-up environment
- Follow-on internships / working student positions after successful projects

### 5 ■ Interested?

If you have any questions, please don't hesitate to send them to [paul@yzt.vc](mailto:paul@yzt.vc).

If you're interested, please send your CV and transcript to [paul@yzt.vc](mailto:paul@yzt.vc) and we will be in touch with you.
