

Internship (m/f/d)

TACH2YONE, Munich

Company background

Tach2yone (www.tach2yone.com) is a growth equity investor aiming to invest in companies along the green energy value chain. Our investments include green energy production, storage, and distribution companies, as well as carbon capturing, circular economy, and industrial applications of the technologies. Our team has worked extensively as senior executives in industry, financial strategy and advisory as well as in transaction execution. Our investment approach is characterized by applying our extensive expertise and industrial and financial network to accelerate the growth path of our portfolio companies. This gives us the opportunity to invest in companies that play an important role in the green energy transition. With our investment strategy we aim to contribute to a cleaner, more sustainable energy future, and we are committed to making a positive impact on the environment and society as a whole.

This is your opportunity to join one of the most exciting projects in the European energy investment space!

The position

Intern (m/f/d) who supports the team in identifying new investment opportunities and daily business. You will also prepare and participate in meetings with senior team members, senior advisors as well as external professional service providers.

In detail, this entails the following tasks:

- Support in investment projects and transactions, i.e., analysis and evaluation of incoming investment requests and business plans of potential new acquisitions and projects as well as contributions to due diligence topics and company valuations
- Preparation of business plans and financial models in the context of due diligence and portfolio management
- Support of the Investment Team in the management of the portfolio, e.g. by participating in strategic projects or in the development, implementation and evaluation of specific control models, key figure systems and reporting tools for individual portfolio companies
- Support in preparation of analyses and presentations for the key stakeholders.
- Working highly independently on the different projects but can always approach a senior colleague

Candidate profile

Dynamic team player (m/f/d) with strong analytical skills and attention to details, a hands-on mentality, level-headedness and a sense of humor even in more intensive project phases.

In addition, we expect:

- Completed or nearly completed bachelor's degree with major in business, engineering, or law
- Excellent academic grades/credentials
- Interest in renewable power generation, hydrogen production and usage as well as energy storage and transportation
- Team player with excellent communication skills, an entrepreneurial/ pragmatic mindset and the ability to understand complex issues quickly and independently
- Strong understanding of numbers and very good strategic skills
- Distinct analytical and conceptual skills as well as a careful, structured and solution-oriented way of working
- Verbal and written fluency in German and English
- Very good skills in MS Office (especially Excel)
- Ideally prior work experience through relevant internships in private equity or related sectors (transaction services, strategy consulting, investment banking)

We offer a fast-paced working environment with interesting challenges, flat hierarchies and supporting colleagues that allow you to follow and develop your ideas and let you grow personally and professionally every day.

Office location is Munich.
