

TUM

Project Studies in Climate Tech

About us

We are Munich-based, founded by an experienced, international and diverse team of serial entrepreneurs and backed by leading VCs and Angels. We are early-stage and still under the radar. This is your chance to become part of the journey before it becomes “the next big thing”.

Why work with us?

- Work directly with the founder team
- Gain hands-on startup experience
- Take responsibility from day one
- Work remotely or on-site (in the heart of Glockenbach)
- Do work with real impact: We make the energy transition happen

Available Projects

- **HR:** Elaborate, test, and execute recruiting strategies for blue-collar workers (work with CEO).
- **Investor Relations:** Develop multifaceted strategy for the next funding round (work with CEO).
- **Growth:** Optimize lead qualification and heating installation processes (work with CRO/CMO).
- **Strategy:** Conduct data-driven segmentation of private heating market (work with COO & CTO).

If you are passionate about making a difference in the energy sector, excited to work in a dynamic startup environment, and meet the requirements mentioned, we would love to hear from you.

Please send your resume and a [short motivation letter](#) (max. 300 words) to tobias@nuuenergy.com.

What we do

Bye bye oil and gas! We are building the all-in-one provider that plans, finances, installs, powers, and optimizes heat pump-based heating systems, cutting housing emissions by up to 90%. We are going live in Germany in early 2024.

Who we are looking for

- First experience in startup, VC, or consulting (e.g. internship) is a must
- Strong analytical skills and data-driven decision making
- Demonstrated ability for high autonomy and independent work
- Collaborative team players

Tobias Klug
CEO & Co-Founder
