AI in M&A

Reinventing Financial Data & Market Research (Project Study)

Shape the future of data-driven M&A transactions with Ennea Capital Partners

Munich-Based Excellence
Advisory and investment boutique with offices in Munich, London and Zurich, specializing in travel, transportation, and hospitality sectors

Global Reach
70+ deals executed across five continents, combining industry expertise with worldwide connections

Strategic Focus
Fundraising, M&A, and strategic advisory services helping companies innovate, grow, and achieve successful exits

Your Chance to Make an Impact

We are looking for a **motivated group of 2-4 students** to join us for a **3-month or 6-month project study**. This is your opportunity to work at the intersection of **AI, finance, and strategy**, exploring how artificial intelligence can **transform financial analysis and market research**, two core areas in which we create investor-ready insights.

You will:

- Contribute to **real M&A projects** with direct client relevance around the world
- Experiment with **AI tools** to reimagine workflows
- Step into the **investor and M&A ecosystem**

Where You'll Create Value

Reinventing Financial Data

- Automating financial statement analysis
- Building smarter benchmarks and dashboards
- Spotting performance patterns faster than ever

Redefining Market Research

- Using AI to digest industry reports, news, and data sources
- Identifying key trends, opportunities, and risks
- Turning information overload into **clear, actionable insights**

Powering GTM with AI

- **CRM**: Clean/enrich records; define reliable workflows.
- **Outreaches**: Segment + A/B emails; track outcomes.
- **Database**: Keep tidy schemas, tags, source-of-truth.
- **Agents**: Prototype AI agents to automate handoffs.

What's in It for You

01

Hands-on AI Experience
Applied to real financial problems with direct market impact

02

Skill Development
Growth in data storytelling and problem-solving capabilities

03

Industry Exposure
First-hand experience with fundraising, M&A, and strategic advisory work
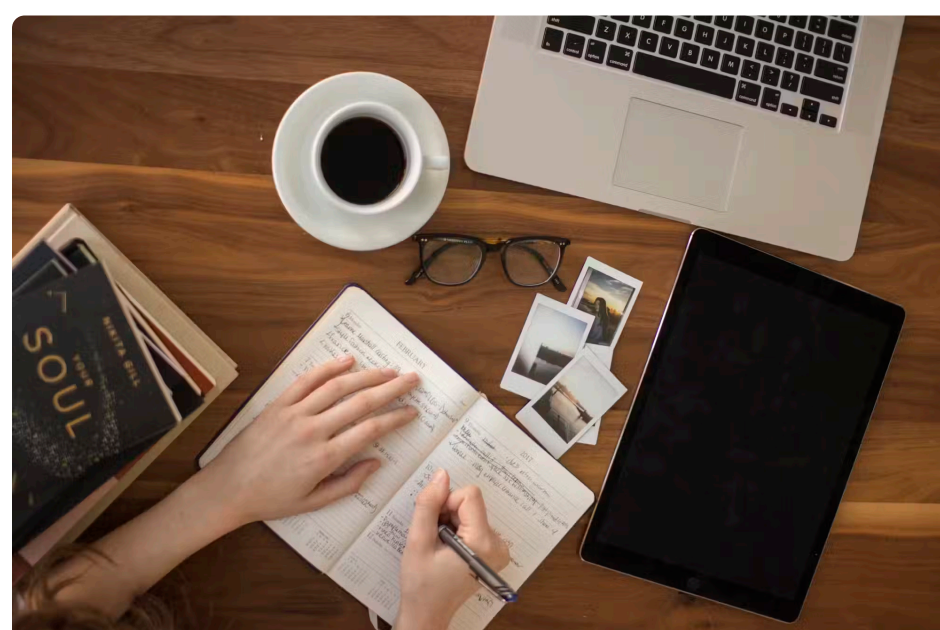

04

Network Access
Mentorship and connection to Ennea's global professional network

Who Should Apply

- A student in **business, economics, finance, data science, computer science, engineering or a related field**
- A curious mind passionate about **AI and M&A transactions**
- Analytical, structured, and eager to learn
- Prior engineering or finance experience is preferred

ⓘ **The Essentials**

- **Duration**: 3 months, full-time or 6 months, part-time. Start ideally ASAP
- **Location**: Türkenstraße 93, 80799 Munich / some remote flexibility
- **Application as a group:** Send an email with CV of all students + short motivation of the group to **seb@ennea-partners.com** (all in English please)

Be part of reshaping how M&A teams work with data. Apply now and help build the future of AI in finance.
