

# Associate Intern

---

Digital+ Partners ([www.dplus.partners](http://www.dplus.partners)) is a growth equity fund focused on investing high-growth B2B technology companies. Our aim is to invest in companies with best-in-class technologies and help scale them into global digital leaders. Digital+ is active in Germany and internationally with a particular focus on companies in the IndustrialTech and FinTech verticals. We differentiate ourselves through our deep B2B domain expertise and a unique, global corporate network.

Digital+ Partners is on-track towards closing a EUR 300m growth equity fund, backed by leading family offices, corporate and institutional investors from across Europe and internationally. We are a team of 10 investment professionals, based in Munich and Frankfurt, with backgrounds in technology investing, corporate strategy and operations in Europe, the U.S. and Asia.

We are currently searching for an Associate Intern to join the Munich or Frankfurt office to work as part of the investment team and help contribute to the success of the firm.

## **Responsibilities include:**

- Support investment team in sourcing and due diligence of new investment opportunities
- Work alongside portfolio company deal teams and management teams on key value-creation initiatives
- Develop reports on specific emerging technologies trends (e.g. industrial VR/AR applications) to present internally to investment team
- Support broader team in day-to-day operations and other firm-related projects

## **Profile/skills:**

- Passionate about new technologies, start-ups and working together with entrepreneurs
- Excellent academic track-record with undergraduate degree (minimum requirement) from leading university
- Previous work experience in start-ups or technology companies helpful
- Highly analytical with strong communication skills
- Strong team player, but also self-motivated and able to drive project forwards independently when required
- Fluent in English, conversational German (optional)
